## Intellectual Gigantomachy, or 13 x 0,0769230769230769 = 1 contra 1

### Prologue

According to a well informed source, there was a secret meeting of Editors of the WSC on May 2018 on acceptable punishment for that impossible Prószyński. He deserved strong punishment for his uncontrolled criticism, which destroy trust in the WSC. It was agreed that clandestine elimination cannot be used this time, the best action would be chivalrous intellectual duel in limelight. It should end, as in Medieval times, with complete elimination of one party (it could be only Prószyński, of course), conducted with exquisite courtesy. Good mean to that end would be use of "administrative charm" (as described by Nikolai Leskov, published by A.A Knopf, N. Y., 1923).

- But how to ensure our victory - a question was asked - Prószyński intellectually is a dangerous guy?
- It is simple – said **alfa-Man** of the WSC - our representation in the duel should be more numerous.
- So how may combatants will represent us?
- Lets calculate intellectual strength of both sides.
- One? - Three? - Ten?
- Lets' agree for thirteen - with that number of fighters we will surely win.
- Will that disproportion be not commented as unfair? - a question was asked.
- But we should respect freedom of choice – said **alfa-Man** of the WSC. **If Prószyński wishes to be represented by one fighter, we cannot influence his choice.**

### Epilogue

According to a well informed source, the Editors of the WSC are not fully satisfied of the outcome of the duel. Activities of Prószyński are impaired now. Shocked by an appeal that papers of Prószyński "...**should be ignored by the community**" because "...**brings nothing but chaos in salticid systematics**" and "...**this is nothing but scientific malpractice**"- no journal depending from WSC will ever publish his papers. Who on the Earth would answer letters arriving from such individual? All these victories are real and true. But he is still very much alive, and kicking around.

- We must change our tactics – said **-alfa-Man** of the WSC. Our collective intellect may be not up to our aims, but there are thirteen of us, and our bodies have weight. Lets all of us sit on Prószyński – we will flatten him entirely. He will not be able to stir a finger.
- But we must train ourselves – added aspiring **beta-Man** of the WSC – training make masters,

And so fighting team of the WSC makes now preparatory training to the next round of the fight. **Since Prószyński is not available for training in sitting on him, they have been training aggressive sitting on a davenport.**

**PS.** Several readers asked what is "administrative charm", because novel of N. Leskov is not commonly known in our time. We explain therefore that a XIX century Russian Official has spread false documents that troublesome political dissident is in fact secret police informer. That was sufficient to finish dissident in eyes of decent peoples in their town. That kind of accusation may be not effective in our time. Bud to spread rumors that a scientist has been once hit in the head, which influences his present behavior? That may work in scientific circles.
